SUMMARY

Junior Frontend Developer and Programming & Problem Solving Trainer, focused on building clean and responsive web applications. Founder and CEO of Solver Academy, helping students develop their programming and problem-solving skills.

RELEVANT EXPERIENCE

Founder & CEO / Instructor — Solver Academy

- Lead Solver Academy and deliver programming and problem-solving training to help students develop practical technical skills.
- Organize courses and workshops that aim to bridge the gap between university education and the job market.

Problem Solving Instructor

Remote & Hassib Sabbagh IT Center of Excellence, AAUP

Aug 2025 – Jan 2026

- Trained **140+ students** through online and in-person problem-solving courses at Arab American University.
- Covered algorithms, data structures, complexity analysis, and competitive programming through structured lessons and practice.

Problem Solving Workshop Instructor

Flasha & Nawars Edu (Remote)

Apr, 2026

- Delivered multiple problem-solving workshops in collaboration with Flasha and Nawars Edu, reaching **250+ students**.

PROJECTS

- **Pizza Plus-Digital Menu System:** Client digital menu website allowing customers to browse products and place orders directly via WhatsApp. Built with React and Tailwind CSS, reaching **800+ visits** since launch.
- **ROSSAD – Graduation Store:** Client e-commerce website for graduation gowns and accessories, featuring product customization, cart, and direct WhatsApp ordering. Built with React, JavaScript, and Tailwind CSS, reaching **1,000+ visits** since launch.
- **E-Commerce Web Application:** E-commerce application integrated with a real backend API, featuring authentication, shopping cart, and protected routes. Built with React, TanStack Query, Zustand, Axios, and Material UI.

EDUCATION

Arab American University

Palestine, Jenin

BSC in Computer Systems Engineering

2023 – 2028

SKILLS

HTML, CSS, JavaScript (ES6), TypeScript, React, Tailwind CSS, Material UI, TanStack Query, Zustand, Axios, React Router, Git & GitHub, OOP (Java), Data Structures & Algorithms, Problem Solving.

ACTIVITIES

- Public Relations Member – IEEE
- Technical Member – IP Team
- Competitive Programming & Hackathon Participant
- Programming Contest Organizer & Problem Setter
